Message from the Chairperson

Dear Readers,

Greetings from Alfa books

Needless to say, the absence of good instructional materials has taken its toll on quality school and college education in the country. To step up the quality of education across the length and breadth of the country, 'alfa books' has taken upon responsibility to publish quality textbooks, instructional materials and other accessory books by roping in veterans, expert professionals, educators and scholars from their respective fields of education and training. Alfa textbooks are well-organized, learner centered and have quality contents. Team of experienced professionals and experts at alfa Books keep track of creation of contents as per the prescribed curriculum and the special needs of the students.

We at alfa Books keep receiving the feedback from all the stakeholders of education across the country particularly from teachers, educational administrators, parents and students in order to improve the quality of our textbooks. We encourage our team of experts to go for continuous research in a particular subject area

so that the latest revised information finds its place in the textbooks and other instructional materials. We are full of gratitude that we deal with VIDYA - knowledge and spread its light all across the country.

Vidya - knowledge cannot be shared by relatives. It cannot be taken away by a thief. It does not decrease by giving. Knowledge is the greatest wealth of mankind.

Thank you!

Warm regards

Shrawan Kumar Thapa
